From Industry.
EDITORS REFLECTOR—Mr. Herring's sale last week drew a large number of farmers from several counties. Stock cattle and hogs brought extravagant prices. Mr. Herring came here some two years ago, purchased his farm for \$2,800 and sold it to a neighboring farmer for \$3,000 cash. A number of real estate transfers has taken place within the past year among the resident farmers, which speaks in thunder tones for this locality.
Some twelve years ago this valley was nearly all wild land, and here and there could be seen the lonely dugout and log cabin, but those apologies of resort has given way to better and more comfortable residences. The wild lands have been converted into fine cultivated fields of wheat and corn. No longer can a zigzag course be made in this valley by the traveler, as each farm is well defined with good osage orange and barb-wire fences. This obstruction can be seen as far as the eye can reach.—From the base of the lofty hills the never failing springs give rise to its sparkling and reeding brooks, which find their way along the gradual and declining slope of this beautiful valley, until they deposit themselves into the rustling waters of the Chapman, and along whose sunny banks her verdure never fades. The scenery of this valley is picturesque and grand, and reminds me of that beautiful stanzas of Moore:
There is not in this wide world a valley so sweet
As the vale in whose bosom the bright waters meet.
Oh! the last rays of feeling and life must depart
Ere the bloom of that valley shall fade from my heart.
Oh! for a railroad through this valley when the waters of the Chapman will be utilized for various milling purposes.

A Complete Establishment.
There are but few towns of equal or greater size, that have as many large business houses as Abilene. This statement has become and will remain a truism. And among those that stand at the head of the list, the firm of Irion & Armitage is prominent. We enjoyed the pleasure of being shown through this immense establishment, and with the exception of clothing and groceries, everything that is needed for the complete furnishing of a home is kept in stock. Queensware, Willowware, Tinware, Stoves, &c.; lamps, sewing machines, organs, tables, chairs, etc., fill the lower floor. The upper floor is given up to furniture, and all qualities and styles are represented. Furniture in sets and single pieces at prices to suit the purchaser. Irion & Armitage stand at the head of house-furnishing firms, and those who contemplate beginning housekeeping as well as those who are old and experienced in the needs of a comfortable home, should remember this fact. The firm will take great pleasure in showing all interested through their establishment, and the time so devoted by the sight-seer will be well expended.

Go to McInerney's for a new hat.
